

CASE STUDY

PURspray Spray Foam Rigs

We recently had the opportunity to speak with Dan, the Department Manager of the Spray Foam Insulation Division at Interprovincial Insulation Inc., a new PURspray customer. We wanted to know why he chose to purchase his spray foam insulation rig from us. Here is what he had to say:

How long has Interprovincial Insulation Inc. been in business?

Interprovincial Insulation Incorporated is currently in it's 49th year of operation, having its roots in Kingston, Ontario.

How many rigs do you have in your fleet currently?

We currently have a 5 ton truck and an older gooseneck trailer that we use for Spray foam and fireproofing.

What made you try our trailers?

I looked up your website, watched the video and it was that easy, no hassles, I knew what to expect when the order was placed. The professionalism of the staff and the way the trailer is built and set up is what drew me to PURspray.

How has your experience been in working with PURspray?

I really appreciate all your help with the new trailer, you make my job easier and the boys certainly appreciate the way the trailer is set up - the layout is perfect!

Would you work with PURspray again in the future?

With the expansion of our spray foam department we will be employing 6 guys by the first of March and 8 by the fall when we look to purchase another rig.

Dan Watson
Department Manager and Estimator,
Spray Foam Insulation Division
